

**ALLERGEN INFORMATION:** the table indicates the allergen ingredients of the meals. Those that are marked by a '?' may contain allergen ingredients like soylecitin. Certain scientific researches suggest that since soylecitin contains very little protein, and the ingredients themselves also represent a minor quantity, therefore the allergen reaction is negligible, however the risk of the reaction yet requires further researches. Whilst Don Pepe restaurants take due care preparing our meals and provide thorough and correct information about the allergen ingredients in the ALLERGEN INFORMATION TABLE, the 100% protection can not be guaranteed against, that further cross contamination of additional allergens has not occurred during the course of pre-manufacturing and food processing of our ingredients that we use for preparing our meals, therefore we emphasize that our meals may contain traces of additional allergens in addition to allergens marked as ingredients.

**PIZZAS TOPPED ON GLUTENFREE CRUST (28 cm - GMT) - these pizzas are created by using pre-made 28 cm glutenfree pizza crusts, however we can not guarantee 100% glutenfree pizzas, because our kitchens are not glutenfree. Since the final pizza products of these glutenfree crust pizzas may get cross-contaminated with traces of gluten, therefore these pizzas can not be considered glutenfree.**

**WARNING: THESE PIZZAS ARE STRICTLY NOT RECOMMENDED FOR CONSUMERS, LIVING WITH CELIAC DISEASE, DHD, GLUTEN ATAXIA AND WHEAT ALLERGY!**

VEGAN OPTIONS														
<p>We prepare our most popular pizzas and meals in VEGAN, meats and cheese are substituted with smoked tofu or seitan and/or with vegan 'mozzarella'. We kindly inform our guests that our kitchens also work with animal based ingredients to a large extent, and although Don Pepe units endeavour with their best efforts to handle the plant based ingredients separately as well as prepare the vegan meals with separate kitchenware and processes, the possibility of human error and of cross contamination of the animal based ingredients' traces in the vegan meals can not be excluded 100%, and the same can occur with any of our seasonings or ingredients that we source from third party suppliers.</p>
